

Feeling disappointed and constrained by gender and artistic categorisation I felt the urge to create a non-prescriptive space for myself and for my work. That's where the concept of UPOs (Unidentified Performing Objects) originated.

A UPO is a wearable artwork that rejects categorisation and sits in between definitions; ever-changing, fluid and queer it aims to transform both the wearer and the viewer.

UPO SHOP is both a concept store and an art installation, located in London, SW8 4UB, it can be viewed by appointment.

*In the following pages are listed the UPOs currently in the store. They come in two formats large wearable artworks and Mini collectable items, also known as *Mini UPOs*.*
